

# COSHH Risk Assessment

## JANGRO PREMIUM MULTI PURPOSE CLEANER

**CONCENTRATED (5 litre) Product Code: BA280-5**

Danger

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged in 2 x 5 litre containers with handle. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
<b>STORAGE</b>			
Containers must be stored upright in a cool, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if caps are firmly in place. Cap is not child proof.	Ensure that the product is stored away from any oxidising materials. Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that containers are not split or blown.
<b>USAGE</b>			
Product is dispensed in a spray bottle using an adjustable trigger spray. Refer to label for dilutions.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of damage to fabrics/clothes.	Handle the containers with care. Spray product away from the body and face at all times. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use. Never spray near foodstuffs.	Provide employees with PPE as follows: <ul style="list-style-type: none"> <li>Protective overall</li> <li>Safety goggles</li> <li>Protective gloves (Butyl rubber or Polyvinyl chloride)</li> </ul> When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities.
<b>DISPOSAL</b>			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure product is exhausted before disposal. Ensure product is not disposed of via a rainwater sewer (i.e. drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal.
